RE: Letter of Recommendation

Mike Klebba

Date: January 29, 2013

To whom it may concern:

I have known Mike Klebba for approximately 6 years. I met Mike after purchasing a house on Timberland Lane in Winter Park.

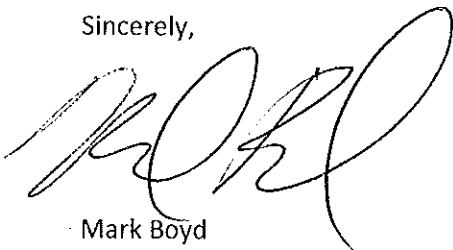

During the time I have known Mike, his company has done two major landscape projects at my home on Timberland. The projects were executed within budget, with minimal input from me and both projects exceeded my expectations in quality and appearance.

Mike is a rare person in his field. It is very uncommon to find a construction manager that is an architect that thinks in a 3 dimensional way. His ability to see the end result before starting is quite amazing and I always enjoy watching him in action.

As he built the house next door to mine a couple of years ago, I watched and asked questions as he went. I have never seen a house built with more care. I only wish that his signature was on the house that I had purchased.

I can strongly recommend Mike to anyone contemplating building a house.

Sincerely,

Mark Boyd

President
